ABOUT US

For more room details, please visit <http://housing.ua.edu/residence-halls/presidential-village/>

- I was born and raised in Columbus, GA.
- I have a bachelor's degree in Speech Communication from Valdosta State University.
- I'm a former SGA President and member of Kappa Alpha Psi Fraternity Inc.
- My favorite sports team is the LA Lakers.
- Can't wait to enjoy Gamedays this season! #RollTide

Tyler Barker
Community Director

Dear Resident:

Welcome to The University of Alabama! Good choice! We are excited about your arrival, and are ready to help you on your way to becoming an integral part of the UA community.

When you arrive on campus, you will meet your Resident Advisor, who will help you as an advocate, an information source and an advisor as you navigate the UA environment. The HRC staff has been carefully selected, thoroughly trained, and are incredibly enthusiastic about enhancing your Alabama experience. Your growth is our central concern, and we have designed progressive programs for enriching the culture of your residential life. Immerse yourself in the opportunity and become involved in activities within the Presidential community this fall.

As the newest community of The University of Alabama, Presidential Village is a high

energy, dynamic community featuring engaging programs, a vibrant staff, and so much more. Residents will have a lot of great opportunities to establish new traditions and leave a positive mark on this community.

By now, you should have selected a Move-In date and time through the Move-In website. If you do not select a time, one will be assigned to you. You will receive additional move-in information via Crimson email later this month, including driving and parking instructions and a map to direct you to your residence hall.

We look forward to your arrival and a great year! Roll Tide!

Your Area Coordinator:
Russell Smith
Office Location: Presidential II

- I attended UA and studied Civil & Construction Engineering.
- I am working on my dual masters in Civil Engineering and an MBA.
- I was an RA in Lakeside for 3 years.
- I was an Honors College Ambassador, University Steward and Avanti. (I can help you get involved!)
- I go to every Alabama football game every year.
- I have two younger sisters that go to UA too! Roll tide!

Ashley Gaston
Community Director

BED INFORMATION

Your bed is an extra-long twin, so XL bedding will be necessary. Your bed will adjust to a height of 60", so an additional loft is not permitted. When you arrive, the bed will be set so the bottom of the frame is 30" from the floor.

If you would like the bed height changed, please submit a work request by August 1: http://housing2.sa.ua.edu/process/forms/work_order_request.cfm

Outside mattresses are not permitted.

SUITE KITCHENS

The kitchenette is equipped with a sink, microwave and full-size refrigerator to be shared with your suitemates. There will not be a stove or oven in your suite.

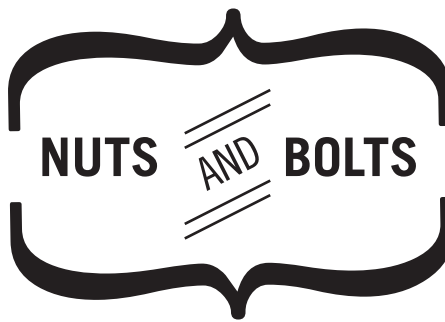

Bringing a small cleaning kit for your suite will be useful as you care for your space throughout the year.

FURNITURE

The furniture that is provided by HRC must stay in the room. Any additional furniture that you choose to bring in must not present a safety hazard, i.e. blocking doors. Please note that any upholstered furniture or other items you choose to bring into your room must be made of fire-resistant upholstery. Fire ratings for acceptable furniture will be shown on tags attached to the item, in accordance with the Flammability Requirements of California Bureau of Home Furnishings Technical Bulletin 117 (a tag on the upholstery will display if this piece is compliant with these standards).

BATHROOM

Your suite has its own bathroom(s), one for each 2 residents. You will be responsible for cleaning it and therefore you will need to bring cleaning supplies and your own toilet paper.

Here's a list of things you'll want to know in preparation for Move-In this fall.

No pets are allowed in the residence halls. Owners of unapproved animals are subject to conduct hearings and fines.

Blinds are installed in each room; however any curtains are the sole responsibility of the resident and are only acceptable with tension rods that do not damage the window framing or walls.

You may only use nails or push pins to hang items on walls (please limit 4 holes per room to avoid repair charges).

APPLIANCES

HRC does not permit open-flame appliances or appliances where the food comes into direct contact with the heat source. Students are encouraged to utilize appliances with an automatic shut-off feature in their space.

If you have specific appliance questions, please email housing@ua.edu.

LAUNDRY

The laundry room is available on the 3rd floor. The cost is \$1.50 for washing and \$1.25 for drying. The machines take Bama Cash from your ACT card.

We recommend you use high efficiency (HE) laundry detergent, which will help ensure that your clothes are properly rinsed during the washing cycles. You also don't need as much detergent per load as with traditional detergent.

CABLE AND INTERNET

Your community will have a wireless internet connection, but you may want to bring an Ethernet cord as well. If you plan on bringing a smart TV, printer, or gaming system, please plan on connecting it with a cable, instead of the shared wireless connection.

Cable service is already connected in your room. Please remember to bring a coaxial cable for each television you are planning to hook up. DO NOT plan to mount a television on the wall, as this is not permitted in any residence halls.

OTHER ROOM INFORMATION

Your floor is carpeted, so you may decide not to bring an area rug.

A curtain will be needed to enclose the closet space; curtain rod of 59" wide and 87" from the floor will be provided.

Move-In

For more information on getting ready for Move-In, check out our website with tips and packing lists.

You will receive additional move-in information via Crimson email later this summer, including driving and parking instructions and a map to direct you to your residence hall.

Email us questions at moveinhelp@sa.ua.edu.
