

MOVE-IN DAY '18

PACKING LIST

Not sure what you will need during your first year here at UA? This list will help you figure out just what you will need for living on campus. Keep in mind, that you will (most likely) be sharing the room with someone else, so think small! You may want to communicate with your future roommate to decide who will bring what shared items. Also, remember to label all of your belongings with your name, building, room number, and phone number.

THE ESSENTIALS

- Appropriate clothing—think in terms of a number of items of lighter clothing, which can be layered as it gets colder and shed as it warms up. To save space, trade your warm weather clothing for cold weather wear at fall or Thanksgiving break, then trade back at Spring Break.
